## BUSINESS DEPENDS UPON INTERCHANGE OF IDEAS HE SAYS

John Hildebrand Of Akron Speaks To Merchants And Employees.

## CLERKS GUESTS OF THEIR EMPLOYERS

Courtesy To Customer And Kindness To Employees Are Stressed.

The future progress of business will depend largely upon the interchange of ideas. This is not only true of local but of world conditions.

So stated John A. Hildebrand, merchandise manager of the C. H. Yeager company, Akron, last night at the Chamber of Commerce following an excellent banquet tendered by members of the Retail Merchants Board to their employees.

It was the largest gathering held at the Chamber of Commerce for some time, 130 people being present, and it proved such a success that it is probable other meetings of the kind will be held in the future.

The dinner was served by Mrs. H. P. Lowell and the Misses Helen Chandler, Jane Bast, Hazel, Frances and Elizabeth Speidel. Music was furnished by Miss Elizabeth Miller and the Salem Boy Scout Trio, Lowell Brown, Ralph Kirschner and Glen Arnold.

Must Aid Europe  
Mr. Hildebrand's address was backed by years of experience in department store merchandising. He said:

"We must do more to assist troubled Europe, because the foreign situation affects our own prosperity. Roger Babson has told us that the need of the hour is more religion in business, but I must add that we should learn to live in peace and harmony if we expect to keep out of war, dissension and pessimism."

"Because the merchants of this country have been poorly organized they have been wrongly accused of being responsible for the high cost of everything, but commercial honesty has proved far more dependable than political ambition."

"The period just ahead can be regarded with optimism by the merchant who is careful not to overbuy and who is willing to turn over his stocks quickly for a fair remuneration. It is no time for speculation. The greatest profits accrue from turn-overs and money is lost in left-overs. Select your merchandise carefully and sell at a reasonable figure. Don't dampen the buying enthusiasm of the public."

## Strikingly Marked Bird Captured, Is Given To School

A cedar wax wing was exhibited to the pupils of the McKinley avenue school and later presented to the biology department of the Salem High school by Parker Lowell, scoutmaster of Troop 7, who with his daughter, Frances, captured the strikingly marked bird Wednesday morning near the entrance to Centennial park.

The cedar wax wing migrates northward at this time of the year and usually breeds in Canada, although the species has been found in this latitude during the winter.

The bird is a chestnut brown with a yellow breast. The wings are tipped with what resembles red sealing wax, and the tail is bordered with yellow. A black bar stretches from the bill across the eyes like a mask.

## POISONOUS BOOZE IS FATAL, BELIEF

Man's Body Found In Shack, Jug Of Whisky Tells The Tale.

East Liverpool, April 11.—(Sp.)—The body of Joseph Ryan, 45, laborer, was found early this morning in a shack along the Ohio river shore at Walkers, just west of this city, by a gang of men seeking a place to sleep.

Beside Ryan's dead body was a partly filled jug of whisky of one gallon capacity. It is believed Ryan died of alcoholic poisoning. He had been a prisoner in the city jail during the week-end on a charge of drunkenness and was discharged Monday morning.

It is believed that he secured the liquor and that its poisonous contents caused his death.

They will be purely religious in nature for the purpose of preaching the gospel to men who are not affiliated with any church at present.

## Jack Dempsey Will Quit Ring To Mine Coal Says Report

Champion Heads Big Mining Company And Will Not Again Enter Ring.

New York, April 11.—Jack Dempsey will not again enter the ring to defend his title as world heavyweight champion, according to a statement made today by Dan McKettrick, eastern manager of the Kearns-Dempsey boxing interests.

The champion, he said, intends to devote his entire attention to extensive coal mining operation, in which he is the principal stockholder at Dempsey City, Utah.

The concern is called the Great Western Coal Mines company and Dempsey has been elected its president and Jack Kearns its secretary and treasurer. McKettrick said:

"He declared that 100,000,000 tons of coal were to be mined at the operation and that income would be sufficient to justify Dempsey and Kearns from boxing."

"They have been considering this step for some time," McKettrick stated, "and from the looks of things everything is settled. I had Kearns on the long distance telephone last night and he assured me that Dempsey is sincere in his intention to quit the ring."

"Of course," he added, "the champion may change his mind after he is out of the game while but he figures he will make enough out of this proposition to remove him from all temptation, as far as the financial end of boxing is concerned."

## Music Not Needed Today As In Past, Claims Professor

Cleveland, April 11.—Music is not as necessary as in ages past, Dr. David Sneddin, professor of educational sociology at Columbia university, told the music supervisor's 16th annual conference in session here.

"Our ancestors used music and needed it more in their time than we do now," Dr. Sneddin said.

"They needed music for war, as an expression of their religion, for love-making and for solace in sorrow."

"Today we need all these things just as much but we have learned to express them through less emotional means."

America is below other nations in its response to good music, Dr. Sneddin asserted.

## SENIOR BANQUET GIVEN AT CHURCH

Secretary Of Alliance "Y" Urges Young People To Broaden Vision.

Gregg Irwin, secretary of the Alliance Y. M. C. A., and Rev. H. L. Miller were the principal speakers at the third annual banquet of members of the Christian church and senior graduates department and their guests at the church Tuesday night. Miss Edith Kelly was toast mistress, filling the position with ability.

Toasts were given by Rev. J. P. Harman, pastor of Holy Trinity English Lutheran church, Russell Fick, Joseph Reeves, and Miss Francis Probert. A reading to piano accompaniment by the Misses Merle Schnurbenberger and Ruth Ziegler entitled "It Takes" was greatly appreciated. Selections by the High school faculty quartet were enjoyed and they were compelled to respond to encore numbers. The Misses Ruth Isensee and Margaret Probert gave vocal solos.

Preceding the banquet a reception was held in the church auditorium and the banquet was served in the first floor assembly room to 68 guests. Pansywilows, daffodils and programs of daffodil design were used in the decoration, carrying out the spring time atmosphere.

Urged To Broaden Vision  
In his talk Mr. Irwin urged the young people to broaden their vision and to take a true perspective of their surroundings, telling them to hitch their wagons to a star and to use wide tires. He went on to explain the necessity of uniting in perfect team work and of their being loyal to their cause, to their leadership and lastly loyal to one another, as such methods are sure to bring reward.

Rev. Mr. Miller commended the young people for their lofty ideals and denied the fact that today's generation is any less resourceful or moral than the young people of the past.

Mr. Miller emphatically scored the scandal mongers who delight in passing on gossip of immoral nature concerning the boys and girls of today, and expressed his utmost confidence in all the young folks in Salem.

The women of the church served the banquet and with their proceeds will purchase a share in the Mary Lyon's girls school in Paraguay, South America.

## Newspaper Accuracy

It has taken newspapers a long time to live down the charge that inaccuracy is their major quality. In earlier days, when communication was difficult, rumor frequently was news, and rumor is fickle. For many years past the supreme goal of every reputable newspaper is scrupulous accuracy and so large a place has that assumed that it is the essential dividing line between good and bad journalism.

Addressing the National Educational association a few days ago, Dr. Otis Caldwell, school principal of New York city, said:

"We clipped 3061 stories upon biological subjects from 492 newspapers in a 17-month period and out of that number only 14 articles contained an inaccuracy. That is a better record than most books can show."

Indeed it is; also it is a record to surprise many a newspaper man, for none is more aware than he of the fallibility of the human machine and he, of all men, knows the score of perils a single fact must traverse before it reaches the sanctuary of the printed page. Error in transmission, poor typewriting, pencil slips, typographical mistakes, even jumbling of type or misplacing a line when all else has been cared for, may wreck a fact, and all of this is threatening from the second it is put on paper for filing until the second the form is locked for the press.

The striking thing about a reputable newspaper is not that it contains inaccuracies, but that they are so few.

## Work And Vacations

THE president is back at his desk in Washington after five weeks in the south, in fine fettle, it is said, and eager for the work which has accumulated. There is always considerable criticism, some of it merely carping and ill-natured but some of it doubtless sincere, when a president takes a vacation. Such criticisms are unjust and uncalled for and, when sincere, must come from persons who never have undergone great mental strain for very long at a time. An elderly or middle-aged man, trying to stand up under the tremendous responsibilities the president must bear, must take vacations and ought to take them rather frequently. A presidential vacation, if it helps the man to endure the burdens of his office, is a positive asset to the country.

The president's job is probably the hardest there is and yet every man of affairs in his own experience sees many sad cases where men in responsible positions, undergoing the heavy strain which falls upon the modern brain worker, postpone their vacations too long. It is a terrible mistake which many successful men make. They try, bravely enough but foolishly, to do more than flesh and blood can stand and they break down or die before their time. Ambition and exaggerated fidelity to business have wrought havoc with many a useful life. A man can make no greater mistake than to go ahead under full pressure all the time, as if he had no physical limitations.

## A SCHOOL GIRL'S SUCCESS

Everything Depends upon her Health

Mrs. George E. Whitacre Tells of her Daughter's Breakdown and How Lydia E. Pinkham's Vegetable Compound Made Her a Healthy, Happy, Strong Girl

Every mother possesses information of vital importance to her young daughter, and the responsibility for her future is largely in her hands. When a school girl's thoughts become sluggish, when she suffers the consequences of wet feet, pain, headaches, fainting spells, loss of sleep and appetite, and is irregular, her mother should have a thought for her physical condition and try Lydia E. Pinkham's Vegetable Compound, which has proved a reliable aid to nature for just such conditions in so many cases.

This Mother Writes: Mahoningtown, Pa.—"I would like to say a few words about Lydia E. Pinkham's Vegetable Compound. About a year ago I thought it would be necessary for me to take my daughter out of school. She was losing weight, was nervous, and when she would come home from school she would drop into a chair and cry, and say, 'Mamma, I don't believe I can go to school another day!' I gave her Lydia E. Pinkham's Vegetable Compound, and now she is a healthy,

happy, hearty, strong girl and weighs 120 pounds. She has no difficulty in doing her 'gym' work, and she works at home every night and morning, too. I am a mother who can certainly praise your medicine, and if it will be of any benefit, you may use this letter as a reference."—Mrs. GEORGE E. WHITACRE, 621 W. Madison Avenue, Mahoningtown, Pa.

Every girl ought to be healthy and strong, and every mother wants her daughter to do well in school and to enjoy herself at other times. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for young women just entering womanhood. Mothers can depend upon it. It is prepared from roots and herbs, contains nothing harmful, and has great power to tone up and strengthen the system, so it will work in a healthy and normal manner.

## PLAN BEFORE YOU PLANT IS ADVICE

April Hints For Backyard Gardeners Given By State Experts.

Plan before you plant. Gardeners at the Ohio State university, issuing April hints for backyard farming, put this suggestion first.

They cite as a model a garden of 26 rows, each 20 feet long. Spaced different distances apart, according to crop requirement, these rows take up a width of 30 feet in all.

Following is what is planted in each row, from left to right; border row of parsnips; Swiss chard, parsley and chives; onion seed; onion sets; onion seed; spinach, spinach; beets; beets; turnips; carrots, and radishes. Thus the first 12 rows, all a foot apart.

Then come three rows, 15 inches apart, of peas; radishes; peas. Next six rows of cabbage and lettuce alternating, all rows a foot apart. Finally two rows of beans 18 inches apart, and three rows of tomatoes 24 inches apart.

This planting plan permits the fullest practical measure of inter-cropping and permits the following succession of crops; radishes after the parsnips, celery after the onions, beans after beets, late cabbage after early peas and radishes, cucumbers after cabbage and lettuce, beets or cabbage after early beans, turnips after tomatoes.

Wild weather in March has held up gardens from 10 days to two weeks the state over, the college men estimate, but before the end of month the time will come to transplant cabbage, and to plant beets, carrots, Swiss chard, Kohlrabi, lettuce, onion seed and sets, parsnips, radishes and spinach.

## Farm Owners Seek To Stop Road Work

Asking for a temporary restraining order against Tatgenhorst & McLaughlin, contractors, and the board of county commissioners, Alexander Rose and others, owners of an 87 acre farm in Yellow creek township have filed a petition in common pleas court.

The plaintiffs allege that their farm lies along the present route of the Wellsville-Salineville rd and that this road is to be improved by paving. The commissioners have, without their consent or notice to the plaintiffs, decided to change the course of the road to cross their land, it is claimed, and the change in route will damage their farming land. They ask for a temporary restraining order to be issued and that it be made permanent on the hearing of the case.

## STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Salem people have used them and know how effective they are. Here's a Salem case.

D. W. Reeder, carpenter and painter, 42 Walnut st., says: "Doan's Kidney Pills were what I took some years ago for weak kidneys and backache. Sharp pains shot through my back and kidneys that bothered me all the time. I couldn't bend without taking hold of something to help me to get up. The pains were so sharp, it made me dizzy and I couldn't see for a time. My kidneys were weak and irregular and knowing that Doan's Kidney Pills were a good medicine, I used them. After taking the second box, my kidneys started to work in the proper manner and the other symptoms left. I haven't needed a kidney medicine since."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Reeder had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## VITRIFIED PLANT WILL BE REBUILT

Company To Spend \$150,000 On Lisbon Plant Destroyed By Fire.

Lisbon, April 11.—Formal announcement has been made of the rebuilding of the plant of the American Vitrified Products company which was destroyed by fire on the night of March 2.

It is expected that the company will expend nearly \$150,000 in replacing the destroyed dry shed and machinery building and equipping it with modern electrified machinery. Work is to begin at once.

Ever since the fire gangs of wreckers have been removing the debris of the burned building which was a four story frame structure that had been erected about 25 years ago. With all the wreckage cleared away, old machinery junked and removed the work of rebuilding can be pushed rapidly.

The clay mine which is part of the company's plant has been thoroughly overhauled, new and heavier rails have been laid and for the tram ways and the mine will be electrically equipped all the hauling to be done by motor.

Since the fire the company has been bombarded with requests to change its location. Several propositions were investigated by them but none of them approached the present situation in advantage nor in the quality of clay offered.

The Lisbon plant of the company which is situated a mile east of the village, has been specializing in manufacturing flasks for interlining in-got molds.

## STUYVESANT FISH, FINANCIER, IS DEAD

New York, April 11.—Stuyvesant Fish, banker and former president of the Illinois Central railroad, died suddenly Tuesday.

Mr. Fish, whose financial battles many times attracted the keenest attention of the business world, had his last big controversy over control of the Illinois Central railroad about 13 years ago.

At that time he was president of the road and locked horns with Edward H. Harriman as to whose interest should hold sway. The fight resulted in the retirement of Mr. Fish as head of the Illinois Central, but it was understood that he continued to

maintain a large stock holding in that corporation.

Of recent years Mr. Fish had been residing in Garrison, N. Y., where he had a large estate holdings. His wife was the leader of the New York "409" until her death, several years ago.

disappointed home-owners tell you to buy ARCOLA NOW

THE BUILDING BOOM started in 1921. That Fall, 5,000 home-owners who had ordered radiator warmth with ARCOLA were disappointed.

Why? Because they waited until Fall to place their orders.

This year three times as many homes are being built as in 1921. Yet no more ARCOLAS can be produced this year than in 1921 because our factories are already over-taxed with orders for larger IDEAL Boilers.

ARCOLA is radiator and boiler in one—different from any others. It is connected with a genuine American Radiator in each room. Warm bed-rooms! Breakfast in a warm dining room! Protection for the children from colds and gripple!

## BUSINESS DEPENDS UPON INTERCHANGE OF IDEAS HE SAYS

(Continued from first page.)

It is an investment, not an expense, and three cents out of every dollar should be spent in advertising which puts across plain truths in forceful understandable language. The public is quick to detect insincerity, and the better stores avoid boisterous, exaggerated statements in advertising. Honesty is the only policy.

## Give Courteous Service

"Our right to get business depends on the courteous service we render, and the price of merchandising success is eternal vigilance. Mail order competition need never be feared by the merchant who builds up good will through honest personal service."

Since the establishment of the Better Business Commission in the large cities, the best stores seldom resort to the use of comparative prices because our customers are most interested in what an article will cost them—not in how much it formerly cost. Let merchandise depend upon its own quality to sell itself. Good taste and good judgment must be used in buying or selecting merchandise and department managers should keep their stocks neat and clean and their displays varied and attractive.

"Today we render a service when we create the desire of a customer to want something. Merchants must direct, instruct and encourage their sales force in creating trade. Without creative salesmanship our manufacturers and our entire communities could not go forward and prosper as they have done. If we put ambition into the hearts of our employees they will put profits into our business."

## Treat Clerks As Humans

"Employees should be aided to understand what is meant by overhead expenses. Sales classes should be held regularly to teach kindness, courtesy and simple dignity, qualities that are understood in every language and which meet with universal approval."

"Clerks should be treated as humans. They should come to the store with a gentle disposition. If we do not derive enjoyment from our work we should go into something else. Customers should receive the courtesy we would extend to any guest because they come to our store, at the invitation of our advertising."

## Ohio Dancers Try To Set Endurance Mark

Cleveland, April 11.—After more than 20 hours' continuous dancing, Miss Helene Mayer, department store clerk, and her partner, Robert Williams, were apparently fresh and going strong at Conklin's Dancing academy here today. ## To Restore Izaak Walton's Home.

Fisherman and sportsmen, both in the United States and England, are co-operating to restore the cottage of Izaak Walton, prince of anglers, and a shrine for followers of the rod and reel the world over. The cottage is at Shallowford, England, six miles from Stafford.

The American leaders in the project are relatives and friends of the late Julien Tappan Davies, attorney and trustee of the Mutual Life Insurance company. Mr. Davies was widely known as a fisherman and sportsman. Maj. T. A. Dunn and other officials of Stafford, the birthplace of Walton, are carrying on the drive in England for an endowment fund for the little cottage, which, under the terms of Walton's will, was left to the town for philanthropic uses.—New York Sun.

## Alleged Klanners Tossed Out Clad In Undergarments

Cincinnati, April 11.—Soon after a blazing was reported in the yards of the Knights of Columbus hall, Price Hill, two "Klanners" were tossed from a motor car near the center of Cincinnati last night, clad only in undergarments.

On the back of each was stencilled: "He is a Ku Klux Klanner." The scantily clad pair, deposited in the view of scores of men and women in front of one of the leading hotels of the city, when anti-theater liners were emerging, hastily tore off their blindfolds, scooted into a taxicab and were driven away.

Later two men, giving their names as William L. Miller, insurance salesman and Erwin J. Burkhardt, Standard Oil salesman, appeared at police headquarters and told Detective Lieut. Eugene Weatherly that they had been kidnapped by five armed men, taken to a remote suburb, undressed, decorated with stenciled legends and unloaded near Fourth and Vine sts. "These are lacking but Miller and Burkhardt deny they are Klansmen."

## Coal Demand Dull, Car Supply Short, U. S. Survey Shows

Washington, April 11.—In most of the larger bituminous producing districts in the eastern United States the demand for coal was dull on April 11, according to a national survey of the conditions just completed by Fuel Administrator Wade, while in the western territory, mines were closed down because of lack of demand.

The survey had been made to determine what had been the aftermath of 1922 and the winter coal shortage which followed it.

Though still held back in some places by transportation disability and shortage of railroad cars, particularly in West Virginia, the dull market was held to be nearly everywhere the chief factor now controlling the industry and little labor shortage or difficulty was indicated.

The report from Ohio was that market conditions were "somewhat demoralized" even though the mines were being furnished with a car supply ranging only from 20 to 40 percent of their capacity to produce. In the Pittsburgh district of Pennsylvania producers pointed out that they were experiencing the ordinary in-between-season lull in demand.

## BONAR LAW RULE FIGHTS FOR LIFE

London, April 11—The Tory government of Premier A. Bonar Law today began a fight for its life.

After a consultation of cabinet members the premier announced that the same motion upon which the government was defeated in commons last night by seven votes would be submitted again tomorrow in the form of a motion of confidence in the government. If the motion fails it is expected the cabinet will resign.

This will be the first actual vote of confidence or no confidence in the cabinet since parliament convened after the Easter recess. In view of the activity of government whips it is almost certain that the government will be sustained.

Cabinet members are attempting to ignore the defeat of last night, but all sections of the press admit that the position of the Tory government has been weakened.

The vote last night was in connection with civil service appropriations. The opposition unexpectedly challenged the motion that the speaker leave the chair previous to the house going into a committee of the whole to consider appropriations. The vote followed.

## REPORT DEVALERA CAPTURED, REBELS ARMY CHIEF DIES

London, April 11—Persistent press reports that Eamonn DeValera, outstanding figure in the Irish Republican movement and his aide, Dan Breen, have been captured by Free State troops near Clonmel, were characterized as "unconfirmed rumors" by Free State army headquarters in Dublin this afternoon, said a dispatch from that city.

Previously William T. Cosgrave, of the Free State government, in telephone conversation with the London office, refused to confirm the report.

Dublin, April 11—With Liam Lynch, chief of staff of the Republican irregular army, dead from his wounds, Free State troops in the Clonmel hills today were reported hot on the trail of Eamonn De Valera; Countess Markiewicz and Dan Breen, the only three leaders of importance at large. These leaders are believed to have been surrounded.

The capture of De Valera and his companions, coupled with the death of Lynch, would be a death blow to the Republican cause, Free State officials believe.

Lynch was known as the "brains of the irregular cause." His death will leave them without an active military leader in the field.

The rebels in the south are willing to quit, according to word from Cork. Captured documents show that the irregular movement is now at its lowest ebb. The breakdown in morale was hastened by the round-up of Republican sympathizers in England and Scotland and their deportation to Ireland, where they were interned.

De Valera's hardest test is now at hand. Monsignor Luzzio, who was sent to Ireland to attempt to arrange peace through the Catholic hierarchy, conferred today with President William T. Cosgrave of the daily cinema.

## WOMEN WILL HEAR FIRST BATTLE ON NATION'S LEAGUE

Des Moines, Ia., April 11.—The National League of Women Voters now meeting in its fourth annual convention here is expected to be the preliminary battle ground for the fight over the League of Nations and President Harding's proposal for a world court.

Delegates are eagerly awaiting the message of Secretary Herbert Hoover tonight, said to be the opening gun in behalf of the administration's world court.

Presenting the other side of the controversy is Lord Robert Cecil, British statesman, who is also expected to make a sympathetic hearing from the league of nations when he addresses the convention Friday night.

The question of the United States' foreign policy is one which concerns the league of women voters deeply. In fact so important does the league consider it that one of the amendments to the constitution, to be voted on this week, makes international co-operation to prevent war one of league's avowed objects.

**Feel Great Responsibility**  
That the administration has seen fit to make its first bid for favor from this organization, representing a membership of 2,000,000 women, has placed a deep responsibility upon the new electorate, officials feel.

But not one of them was rash enough to predict what action the convention would take in the matter of endorsement, or even if it shall take any at all.

Mrs. Maud Wood Park referred to the question in her opening address last night when she called upon the women to inform themselves thoroughly upon this issue.

Mrs. Harriet Taylor Upton of Warren, O., veteran suffrage leader of that state, now chairman of the Republican women's national committee, made an advance attack on the league of nations at a Republican women's luncheon yesterday, denouncing it as a "super-government."

Youngstown — Youngstown is to have two circuses early this season. Robinson's shows will come to this city May 14, while Ringling Brothers are scheduled for June 11.

## OHIO POPULATION OVER SIX MILLION

Washington April 11.—Population of Ohio on July 1, 1923 will be 6,117,112 the census bureau estimates. This is an increase of 357,728 persons over the count which was taken Jan. 1, 1920.

The estimate is based on the proportionate growth of the state between 1910 and 1920, census bureau statisticians assuming the proportionate growth of the state since the census is the same as during the preceding 10 years.

The 1910 census gave Ohio 4,767,121 and if the ratio of growth in continued Ohio will have approximately 6,832,778 persons when the 1930 count is made. Estimates for Ohio cities as of next July 1, give Cleveland 888,519; Cincinnati, 406,312; Columbus, 261,682; Toledo, 268,338; Dayton 165,539; Canton, 99,248 and Warren 31,965.

Because of the "disproportionate growth of Akron and Youngstown" between 1910 and 1920 census statisticians have refused to estimate these cities.

## THINGS TO KNOW ABOUT OUR SERVICE

## How to Understand Electrical Terms

When you read on your light bill that so many kilowatt hours of electricity have been consumed; or a salesman in a store tells you that this electric iron may be used on direct or alternating current, the electrical terms involved may naturally puzzle you.

However, while no man can say exactly what electricity is, we all know what it will accomplish, and there are certain units for measuring it and certain terms applied to its operation that every current consumer should understand.

We have a really fascinating little booklet prepared by the Society for Electrical Development, Inc., which defines—with almost primer like simplicity—these electrical terms. We'd like for you to have one of these booklets. They're interesting reading.

## S.S.S. has stood invincible through the ages

Why? Because S. S. S. is made from Nature's select medicinal herbs—it is purely vegetable. Our own trained men gather them. And—because we extract from them their medicinal principles while they are yet fresh.

**Visitors welcomed to our laboratory**  
We wish you could see our two hundred men in the fields every Winter when "the sap is in the ground" carefully selecting the roots of these herbs, and then follow them to our laboratory (which is always open to visitors), and watch their preparation into the finished medicine—you would be convinced.

**What S.S.S. does for the Blood**  
S. S. S. hits at the very basis of most diseases, because, by furnishing the organs with fighting blood, it enables the organs to fight off disease. Pure blood is the world's greatest fighter. S. S. S. is the most powerful blood-cleanser and blood-cell builder in existence. As it builds up your blood-cells, every organ in your body feels increased activity, your elimination is improved, your secretions are stimulated, the accumulation of waste products and impurities decreases, your appetite is improved, cell-tissue is increased, your weight is built up to normal, appearance of age is lessened, vigor is increased, complexion clears, rheumatic pains leave. All this, because more blood-cells enable the blood to fight and get the strength and richness which Nature intended it to have. S. S. S. does it!

**Fortify your Blood**  
S. S. S. has solved the problem of health and strength for millions. It is based on Nature's common-sense. A trial of S. S. S. will prove the fact. When you have proven it, our greatest reward will be that we have lifted you out of physical distress, given back to your body its birthright to health, and made another mortal heart happy.

**S.S.S. is recommended for:**  
Pimples, Boils, Eruptions, Blackheads, Blisters, Acne, Rash, Tetter or Eczema, Rheumatism, Poor Blood, Weak Spells, Run-down Condition, Loss of Appetite, Nervousness, Thinness, Poor Complexion, Scrawny Neck, Thin Limbs, Hollow Cheeks.

Millions of Families

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford Cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford. And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

## NEW YORK WRITER PICKS TIGERS TO CAPTURE PENNANT

White Sox In Runner-up Position And Yanks Trailing Them.

By DAVIS J. WALSH

New York, April 11.—That the New York Yankees are not the ball club to succeed where better combinations such as the old Giants and the Philadelphia Athletics failed, to wit, the winning of three championships in succession, has become the firm conviction of this writer within recent days. He is therefore picking the Detroit Tigers to win the American league pennant this season with the Chicago White Sox in the runner-up position.

The Yankees, being an outfit that must either win the pennant or flop ingloriously, is selected to run third and the dismembered Browns for fourth place with the Cleveland Indians, the Athletics, Senators and Red Sox following in the order named.

**Tigers a Team of Destiny**  
The Tigers seem to be the team of destiny as far as 1923 is concerned. Probably the greatest collection of enthusiastic hitters ever assembled, they can blast their way to a pennant behind even mediocre pitching. Cobb, however, may get more than that from his staff, in which case the Tigers will coast in.

He is just the man to make a great pitcher out of Rip Collins and very possibly will get some definite results from Sylvester Johnson, speed ball king of the minor two years ago. Add to this pair Herman Pilleto, the best kid-pitcher uncovered last season, and the elderly Dause and you have the framework of a more or less solid institution.

A better club than any in the league, if it could muster the pitching, is the Chicago White Sox. They are a faster, smarter team than either the Tigers or Yanks and have plenty of hitting but we are dubious of the ability of Faber, Leverette, Blankenship and Robertson to pitch the Sox into a pennant. Faber is gradually losing effectiveness in his declining years and the others are mere youngsters who may or may not come along.

The Yanks are dropped to third place for several reasons. One is that if they win the pennant at all, they will do it right. The other is the apparent breaking down of their defenses in several places.

Scott is not and probably never will be again the shortstop he was in Boston. His legs are going and that is the swan song of all ball players. Ward is not smart enough to play second base satisfactorily. He is a sensational third baseman, where most of the plays are in front of him, but the intricacies of the keystone bag have been stopped like a watch. Further, the Yanks will face the necessity of replacing Witt in center-field sooner or later. The pitching, of course, is the best in all baseball, but weaknesses at the positions mentioned would bankrupt a staff of Mathewson's.

**Indians Building Anew**  
The Browns, without Sisler, are punch-less and must develop a few pitchers to string along with shocker if they want to finish in the first division. The Indians are building anew and may, in time, make a thorough-going job of it, but not this year.

JOHN GUNESCH

They are shy on first-class pitching and the impressive hitting of the 1920 champions is doing a slow fade-out. As for the Athletics they are generally regarded as a dangerous entry that is likely to prove annoying to pennant contenders from time to time. It is a club, however, that lacks convicting hitting and with the exception of Rummel, the pitchers come under the vague definition expressed as "promising." The Senators and Red Sox are hopeless, the latter more so than any major league club since Connie Mack dismembered the old Athletics.

## THEATRES

**"Tangerine"**  
Friday and Saturday, April 13 and 14, will be marked by the coming of the Park theater, Youngstown, of "Tangerine," the altogether different musical comedy which ran for a solid year at the New York casino, and which comes with a fine record of achievement on its present tour. No musical play produced in New York in recent years has attracted wider attention, not only for its whimsically humorous story but for its lovely music, and of the 18 numbers that adorn the Carlo-Sander score, a round dozen have found their way to the recording devices and are numbered among the best sellers of music counters. Of these perhaps "Sweet Lady," "In Our Mountain Bower," "Isle of Tangerine," and "Atta Baby," have become best known.

**"Breaking Home Ties"**  
"Breaking Home Ties," the Associated Exhibitors feature photodrama to be shown Wednesday to Saturday nights at the High school auditorium, is a drama that touches every man's life and echoes in every home because it concerns that invisible yet powerful force, the family circle.

The story begins in the beautiful home of a happy, congenial family, so generous and kindly-hearted that they take in from the streets, a penniless, starved musician. They accept him as one of the family and even give

him the violin that was to have brought fame to the eldest son of their home until war claimed him. Then, at the height of their happiness and success came the crash—in a moment of anger and jealousy the son committed a crime—he must flee the country—hasty, tearful goodbyes, pouring rain—a horse on the muddy roads—a mad dash away from the law. Then years of separation. Misfortune to the parents and success to the son—each lost to the other, each searching, and sometimes being so close together, though neither knew it, that father's and son's hand nearly touched.

It's a story of rare beauty and strength, designed to bring smiles that will turn your tears into rainbows of happiness.

New York—After quieting the congregation when fire broke out in the basement of the First Magyar church here Rev. G. Takaro went into the under ground section of the building where he rescued a Sunday school teacher who was overcome by the smoke and flames and he then returned and extinguished the fire.

## N. Y. Methodists Vote Women From Pulpit

New York, April 11.—The New York annual conference of the Methodist Episcopal church voted, 35 to 31, against ordaining women as ministers in that denomination. A number of delegates refrained from voting.

Four commissioners were appointed to organize a Wesley foundation to look after the religious training and welfare of 400 Methodist students at Princeton university.

Women get old among primitive people much earlier than in higher civilizations.
